

BONANZA **DEMANDS**

precision "Nav-Com" performance

wilcox **DELIVERS**

it with a CANARI package installation

Most of Bonanza Air Lines' routes cross the major East-West airways. Thus, their operations require the utmost precision in navigation and communications.

To meet their demands, Bonanza Air Lines selected Wilcox CANARI Equipment for its pin-point accuracy and proven reliability.

Bonanza Air Lines has achieved an enviable safety record. They are sure to maintain it with their F-27 Silver Dart jet-prop fleet equipped with Wilcox CANARI navigation and communications system.

For more detailed information about the advantages of installing Wilcox CANARI equipment in your aircraft . . . whether for commercial or business operations . . . write, wire or phone . . .
